HAPPY VALLEY B School:

Our first destination was Happy Valley Business School. They welcomed us in a pleasant way with tea and snacks. Then we headed to the Lecture Hall. It was followed by two sessions with interaction. The first session was taken by Dr. Bina mam. She enlightened us and made us aware of the present day difficulties people find in to get a job. It made us understand the shakes which we have to face in our coming time. The session glorified the upcoming AI challenges which would destroy almost 70% of the jobs and would create large scale unemployment. It made us wonder about how to survive in the upcoming years. Explained us the impermanence of the jobs and made us understand that its all a roller coaster and we must strengthen up and be ready to deal with it. The next session was taken by the CEO and the founder of this institution Dr. Kanakargi Sir. His session was almost how to make wealth and capital by saving up. He talked about personal, social and financial wealth, explained it amazingly. He was full of knowledge and it was amazing and eye-opening for all. The visit of Happy Valley B school was really a good decision taken by the faculty members.

The students were friendly and humble. The visit to Happy Valley B school was a great one.

MAHATMA GANDHI MEMORIAL:

Next we went to visit Mahatma Gandhi Memorial. It was a place where Gandhi stayed for sometime. This place was a whole exhibition of things used by him. It showed the whole biography of Mahatma Gandhi. It had many pictures and written reports on his visit and his protests. It was also an informative place.

GD MUSEUM:

The GD MUSEUM had a collection of more than 100 vintage cars, each with a history or a unique technology. Sri. GD Naidu was an eminent industrialist and had a great passion for the automobiles. He was an Indian inventor and engineer who is referred to as the "Edison of India" and "the wealth creator of Coimbatore". He invented many prominent things like electric motors and electric ~~sto~~ razor.

The Museum showcase many scientific evolutions and technological ~~advances~~ advancement in all the fields. It had a collection of many fascinating things like ~~re~~ calculators, laptops, watches, pens, architectural models, wasters and scientific toys, illusions.

cars and engines etc.

My personal favourite was Plasma, the fourth state of matter. It was so fascinating and an electricity generating walking wheel. There was also many illusions. It was impressive to know the science behind all those illusions.

PERSONAL VIEW POINTS & CONCLUSION

The IV was a grand success on both personal and professional level. The planning was great, the selection of places was also good. It was worth going and giving it a shot. Personal development and understanding to many concepts and things was acquired.

The support from the college and faculty members was there. It was a very good one. I enjoyed and learnt many things.

Looking forward for more upcoming great IV.
